

WRAPS CON Wrap OLYMPICS

Here are the 2021 Wrap Olympics Judges:

Emcee: Kevin "The Professa" Kempf, PG NOLA

A man full of knowledge and talent, he is a "doer" focused on delivering quality... from his designs to his wraps and marketing. For many in the industry he is not known by his name, but by his nickname: *The Professa*.

Starla Miller, Miller Decals

Starla began watching her husband install graphics in the '80s. The process still has similarities, but the industry has changed dramatically. Starla has been the CFO and quality control specialist at Miller Decals for 13 years. Simply put, she loves what she does.

Jen Carney, Carbon Wraps

Jen is a co-owner of Carbon Wraps, a husband and wife founded and operated specialty wrap and design shop. She is head of marketing, business operations, customer retention and quality assurance, is a trained installer, and has been a part of the team since day one.

Steve Carney, Carbon Wraps

Steve is a co-owner of Carbon Wraps with his wife, Jen. He is a vinyl wrap artist, graphic designer and trainer with 18 years of industry experience in project management for design, print, production, and installation. Steve has been highlighted in magazine articles, including *WRAPS*, and an expert panelist and guest installer at WRAPSCON.

Luis Triado, WBC Graphics

With 17 years of experience, Luis is the inventor of the Blade Cage safety wrap tool – utilized by wrap installers to snap and secure used disposable blades – and an active graphic designer who produces and professionally installs graphics.

Keith Vu, Savage Wraps

In a span of 34 years, working in the print and sign industry, Kevin brings all his talents forward into the digital age of print, design, and installation. His experience includes high-end commercial installs, fabrication, and over 3,200 vehicle wraps.
